Dear The American Teachers Association,

There is a Kid by the name of Madeline Kramer in Peru, Illinois. There is a teacher at her school who frequently uses her as a sexual puppet to perform her misdeeds. She aids and abets with her Father, Kevin Kramer to conduct a sexual ring in LaSalle County, Illinois where she has anal, oral sex with officers at the Peru Police Station. They have aided and abetted to have her as their sex slave and she was without ever being protected from them to begin with. Her Family has often placed her in the care of local pedophiles so sexual miconduct can be carried out and she has to endure rape on a regular basis because of this. She is in grave danger as the pedophilic Father has attempted to murder her several times and admitted to threats of this openly in the court of law. He dug graves for her according to Chicago Illinois private detective, Ronald Davino. He's expressed her concerning world to me over phone conversations where he said that she has sex with the States attorney, Brian Towne and thats why no one is doing anything to help stop the abuse and are trying to coverup his crimes. He then said that she was agressively raped and assaulted around Halloween time this year where she incurred head trauma and physical injuries which required need of Medical Assistance to heal from and which she was also denied, which caused her brain to bleed due to

the fact she suffered a mild concussion and was denied medical treatment for it goes to show how doomed the child is in the Father's care and how the teachers aided and abetted to help the Father achieve this mission due to how they had knowledge of it and did nothing to help the child and how the child behaves after time spent alone with teachers in the bathroom in that school aid one to know with certainty, the teachers are in on the abuse of the Minor Child, Madeline Kramer who resides in Peru Illinois.
